Thank you Amy for your concurrence.

Also, a correction to my previous email: the two edits that BASF and Syngenta have so far approved were those drafted by Lindsay during our group call, not subsequently submitted by BASF. No further edits have been proposed after the meeting.

EPA awaits concurrence from Bayer before moving forward.

Thank you, Jeff, for BASF's prompt follow-up. The two edits proposed by your company (screenshot below) appear reasonable but EPA will wait to hear from the other registrants before moving forward.

- d. Registrant must take the following actions to contact all users who have already completed the 2022 training in states where there are EPA-approved state-specific restrictions to communicate the amended labeling. This will be done by sending all users who have already completed the 2022 training either (1) an email containing an ask for them to click a respond with a certification statement acknowledging that they have read and understood the new requirements or (2) a physical letter containing a reply postcard acknowledging receipt stating they have read and understood the new labeling requirements. If Registrant does not receive the email response/clicked certification acknowledgment or reply postcard within two weeks, Registrant must contact that user two additional times. The

Hi, all.

Based on our conversation, please see the attached draft terms and conditions.

Please respond with any comments or with your concurrence on these conditions as soon as possible, 11am at the latest. If there are any barriers making an 11am response impossible, please let us know.

Thanks for all of your cooperation during this process.

Best regards,
Lindsay

Subject: Dicamba Terms and Conditions

Dear Dicamba Registrants:

EPA has considered and incorporated registrant feedback and completed the attached updated draft terms and conditions for your respective dicamba OTT products. As before, sections of text with recent updates are highlighted in blue. I have scheduled a 9am meeting for tomorrow to go over EPA's position on the terms and resolve any final issues.

Best regards,
Meg
